

Why do your female customers want it?

- **CONVENIENCE** – Above all, your female customers have always been struggling with where to place their handbag and laptop cases – often choosing their knee, their lap, the back of their chair or the floor.
- **SANITARY** – With growing awareness of disease and germ transference through unsanitary practices, soon customers will be demanding a solution to this constant problem.
- **SECURITY** – Significantly reduces the possibility for wallets, keys, or credit cards to be lost.

A Simple, Low-Cost, Effective Solution

for handbag bacteria, inconvenience, clutter and security.

Peace of mind for
your customers...
AND FOR YOU.

Studies show women's purses carry high levels of harmful bacteria. When you think about it, that's not so surprising. Women take their handbags with them everywhere, from the office, to public toilets, from shopping carts to their kitchen counters.

Why should you be concerned?

When customers eat in your establishment, they are trusting that you are adhering to appropriate cleanliness standards throughout the facility including the dining area, food preparation area and bathrooms. Yet, unknowingly they are in possession of an item which could potentially transfer dangerous illness causing bacteria to your dining table.

That handbag has been where people walk, sit, sneeze, cough, spit and go to the washroom!

The time has come for this safe, simple solution.

The simple solution is to provide convenient SecureAll Hangers™ at your tables and bars, by your bathroom sinks and in the stalls.

Your female customers have long been frustrated about where to put their handbags and laptop cases. Usually they are forced to leave them on the floor, hang them on their knees, place them in their laps or drape them off the backs of their chairs where they can easily be stolen.

The SecureAll Hanger™ is contemporary in design, durable and strong. It can be easily installed on the underside of a table or other surface to hold handbags, shopping bags, briefcases and other personal items. They can be mounted horizontally, vertically or laterally - with no issue of contact with knees or thighs.

Why will your business benefit?

- **FOOD SAFETY** - Not only do our hangers reduce bacteria transference in your eating establishment, they will reinforce customer confidence that food safety is important to you.
- **CLUTTER** - Reduce unsightly clutter in and around tables and lounge areas.
- **SERVING EASE** - Serving staff won't be tripping over purses, laptop cases and shopping bags on the floor.
- **PREVENT IDENTITY AND PROPERTY THEFT** - Customer belongings are more secure.
- **WOMAN-FRIENDLY** - Women customers in particular will see it as "added-value".

Don't let your customer possibly be the next identity theft victim! Protect yourself and your establishment with the SecureAll Hanger™.
